

Patent Awarded

David Edwards, Jr. and Christopher P. Lanni, both in the Accelerator Department, were awarded U.S. Patent #4,302,679 for inventing a method of determining the x-ray limit of an ion gauge. In both previous methods and their invention, the x-ray limit is measured by varying the electric field within the volume defined by the grid so as to vary the positive ion current at the collector.

Previously, a modulator wire was added to the structure of the ion gauge to provide means to vary the electric field. Such modulator wires were believed necessary since, in a typical ion gauge having a long collector wire, essentially all the positive ions would be trapped by the collector even though the collector to grid voltage was substantially reduced. The present invention is based on the realization that the strong dependence of the positive ion current on the collector to grid voltage in ion gauges having a short collector wire may be used to obtain the necessary variation in positive ion current.

Hence, the BNL invention provides a simple and inexpensive ion gauge having a low x-ray limit and a means to measure that limit.

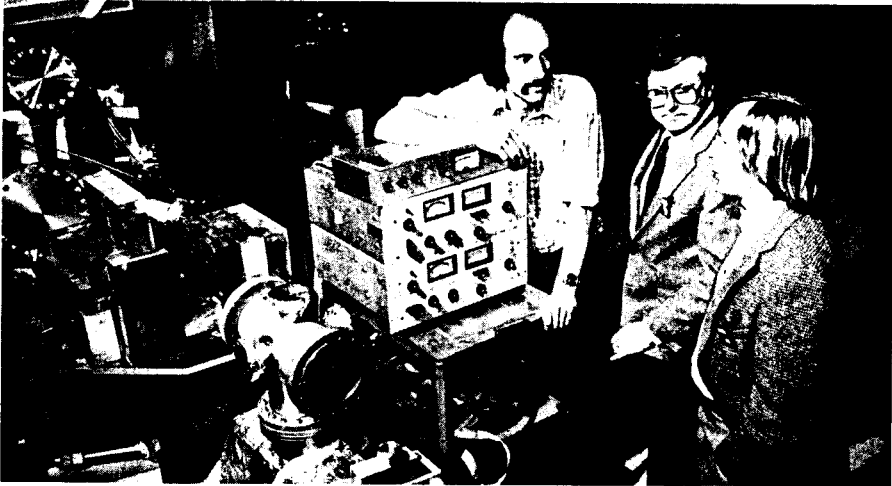

Light From The Light Source

Another significant step was taken at the National Synchrotron Light Source last Thursday, May 6, when port U14 in the VUV electron storage ring was opened for the first time.

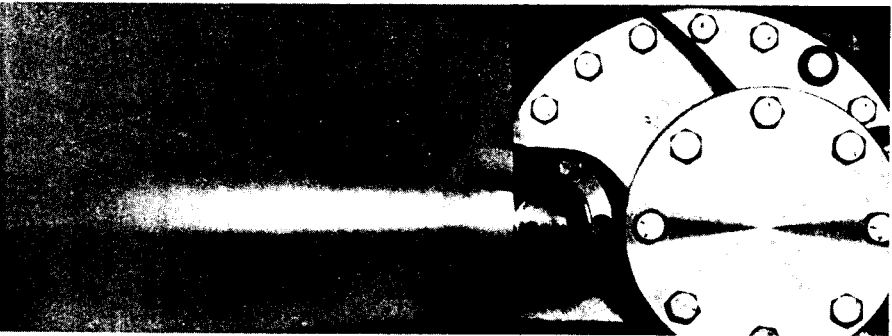

The bluish light that came through a pyrex window was used to set up the first beam line on the VUV ring. Several more ports are expected to be opened within the next few weeks. Led by physicists Gwyn Williams and Malcolm Howells, NSLS personnel have been using the opportunity that having an actual beam line affords to study the beam's size, position and stability; to align optical components; and to install radiation shielding.

By passing this milestone, said Williams, "We are now in a new commissioning phase where we will be checking out the monochromators in the beam line." From the white light that comes out of the VUV ring, these instruments isolate the one color, or wave length, required for experiments.

Williams said that this whole commissioning process will take several months, but that the first experiment should be under way by summer.

Leaning against the controls for port U14, Gwyn Williams (left) discusses the first VUV beam line with John McTague, head of the NSLS, and Malcolm Howells.

The first beam of visible light from the NSLS is shown emanating from port U14 of the VUV ring.

Site-Seeing At BNL

Within the past few weeks, Brookhaven has played host to several distinguished visitors, all of whom were here to become acquainted firsthand with the Lab's research facilities and, in particular, to review the ISABELLE project.

Representative Tom Bevill (D-Ala.) paid the Laboratory an official visit in his capacity as chairman of the Subcommittee on Energy and Water Development of the House Appropriations Committee. He was accompanied by Long Island Congressmen William Carney (R-Hauppauge) and Tom Downey (D-Amityville), both active BNL supporters.

Representatives Bevill (left), Downey and Carney answered questions from reporters at the ISABELLE site.

Doug Humphrey

Ed Hayes is both a part time examiner in the Office of Management and Budget and a chemist with the National Science Foundation.

Jan Mares was visiting all the national laboratories in connection with his new duties as Acting Deputy Undersecretary of Energy. He is also Assistant Secretary for Fossil Energy.

Professor Edward Teller, Lawrence Livermore Laboratory, is a member of a panel of scientists who serve as an advisory group to George Keyworth, the President's Science Advisor.

Physics Department chairman Arthur Schwarzschild points out features of the Tandem Van de Graaff to the Congressmen.

Doug Humphrey

Doug Humphrey

Associate Director Martin Blume explains the workings of the National Synchrotron Light Source to Jan Mares.

Before their tour, Director Nicholas Samios presents some background on ISABELLE to Professor Edward Teller.

1982 AUI Scholarship Winners

Twelve sons and daughters of BNL employees have been announced as winners of the 1982 AUI Trustee Scholarships. The scholarship is in the

amount of \$1700 per year, for up to four years, and is to be used to help defray college expenses. The winners were selected from a field of 62 appli-

cants by an independent committee reporting to the College Scholarship Service. The scholarship program was initiated by AUI in 1965.

James Hsu

Barbara Kato

James Hsu - son Chia-Jung Hsu (DNE)...student at Earl L. Vandermeulen H.S....resident of Port Jefferson...plans to attend Carnegie-Mellon Univ.

Barbara Kato - daughter of Walter Kato (DNE)...student at Earl L. Vandermeulen H.S....resident of Port Jefferson...plans to attend Haverford College.

Benjamin Peierls - son of Ronald Peierls (Applied Mathematics)...student at Bellport Sr. H.S....resident of Brookhaven...plans to attend Cornell Univ.

Jeffrey Shaw - son of Elliott Shaw (Biology)...student at Shoreham-Wading River H.S....resident of Shoreham...plans to attend M.I.T.

Benjamin Peierls

Douglas Willen

Miriam Zucker

J. Douglas Willen - son of Erich Willen (Accelerator)...student at Shoreham-Wading River H.S....resident of Shoreham...plans to attend Princeton.

Miriam Zucker - daughter of Martin Zucker (DNE)...student at Westhampton Beach H.S....resident of East Moriches...plans to attend CalTech.

Inside Info

Joseph Hendrie, a Sr. Scientist, and former chairman of the U.S. Nuclear Regulatory Commission, was made a Commander of the Order of Leopold II by King Baudouin, King of the Belgians.

The decoration was presented by the Belgian Ambassador, the Honorable Raoul Schoumaker, at a ceremony held at the Belgian Embassy in Washington, D.C. on April 29. The award was made in recognition of Hendrie's contributions to the furtherance of friendship between Belgium and the United States.

A. Bertrand Brill, Medical, has been named to the Administrative Committee of the Nuclear and Plasma Sciences Society of IEEE. He will serve a three-year term.

Martin Plotkin, Accelerator, is chairman of a steering committee set up to oversee the publication of a new IEEE journal, Transactions on Medical Imaging. Authoritative studies will be published on generation, processing and/or display of medical images.

Gypsy Moth Update

For a little bug, the gypsy moth commands a lot of attention. According to the Cooperative Extension Association of Suffolk County, researchers from the New York State Department of Environmental Conservation, Long Island State Park Commission and Long Island Horticultural Research Laboratory were all involved in gypsy moth egg surveys during the winter. Here are some of their findings:

Suffolk County - Populations seem to be on the upswing in the Indian Island and Sears-Bellows County Parks. Blydenburg, Cathedral Pine and Cedar Point Parks show reduced numbers of viable egg masses but may still witness considerable infestation, especially where oak and white pine predominate.

Nassau County - Healthy egg masses found in parks in Bethpage, East Meadow, Hempstead, Plainview and Rockville Centre areas indicate a damaging population in the southwest sector. The immediately surrounding, privately-owned lands and home sites may also harbor similar levels of viable egg masses.

How can the homeowner cope with gypsy moths? The Cooperative Extension makes these suggestions:

- Scrap off egg masses whenever they are discovered, then burn them or drop them in kerosene. Act now; gypsy moth larvae will begin to emerge as oak buds break open.

- For effective spraying, conditions and timing to prevent defoliation must be nearly perfect. Spray no later than the last week of May. On small trees, use Sevin, Orthene, Methoxychlor or *Bacillus thuringiensis* (Bt), a bacterial spray utilizing a natural enemy of the moth. For effective control, large trees must be sprayed by a professional applicator. Read labels carefully before purchasing any spray materials.

- As larvae become larger, they seek cover during the day on the undersides of branches, in bark crevices or on the ground. A piece of burlap may be hung around the tree trunk as a place for the caterpillars to hide. There, they may be picked off and destroyed daily. Painting tree trunks with creosote is not recommended as it may kill the cambium layer of the tree. In fact, any sticky substance applied directly to the bark is ineffective and harmful.

Reports Available

The following reports are now available to the Laboratory staff and to affiliates of the DOE, AUI and NRC. Others may purchase the reports from the National Technical Information Service, U.S. Dept. of Commerce, 5285 Port Royal Rd., Springfield, VA 22161. Staff members should call Ext. 5068.

Layoff Notice

Seventy-four employees received notice of layoff on Monday and will leave the Lab on May 21. The layoff comes as a result of a reduced FY 1983 budget. Even though some items in the budget may be restored, including construction money for ISABELLE, Lab Director Nicholas Samios said the current reduction in force would still be necessary. Those most affected are in high energy physics programs, and it is hoped that some of this number can be placed in other groups not subject to significant budget constraints.

Dry Picric Is No Picnic

If you have any picric acid in your lab, particularly some which has been sitting on a shelf for a while, you may have a problem. According to Charles Meinhold, head of the Safety & Environmental Protection Division, picric acid is commonly used in the laboratory mixed with 10% water by weight. However, if picric acid is allowed to dry, it becomes a powerful explosive. Recently, a bottle of completely dry picric acid was found at BNL and an emergency pickup and detonation of the container was required. So check your chemicals and if picric acid is among them, let your Safety Rep know about it. Other common lab chemicals which should be inspected periodically because of their explosive properties, include peroxides, perchlorates and ethers.

PINY COURSE

Registration for PINY/BNL extension course NU 607, Reactor Licensing and Safety, will take place Tuesday, May 25 from 5 to 7 p.m. at the PINY Farmingdale campus in Melville on Route 110. Classes will meet from 5:30 to 8:30 p.m. Monday and Wednesday in Bldg. 318, starting June 14. The instructor is R. Bari. For additional information, call Prof. R. Aronson, PINY, telephone number 212-643-8184.

BERA Officers

At a meeting of the BERA Board held last week, Nelson Tyler was elected President for the coming year. Other officers are Rosalie Piccione, Vice-President, and Janet Sillas, Corresponding Secretary. Continuing in their Board-appointed positions are Pat Towe as Recording Secretary and Richard Eggert as Treasurer. Board meetings are normally held at noon on the first Thursday of each month, and are open to anyone who wishes to attend.

Swimming Pool

Fees:
Season Tickets (fees not prorated)
Individual Membership \$23.00
Family Membership 33.00
Daily Admissions
Employee/Family Member 1.25
Guest 1.75
Schedule:
Monday through Friday
(Employees Only)
11:00 a.m. to 1:30 p.m.
(Employees/Families/Guests)
5:00 p.m. to 9:30 p.m.
Saturday and Sunday
(Employees/Families/Guests)
1:00 p.m. to 6:00 p.m.

Note: The swimming pool is closed on all Laboratory holidays.
Guest Ruling (Applies to all recreation facilities)
One Guest - An employee is allowed to bring one guest per visit without special permission or prior arrangement. The guest must be accompanied by the employee.
Two to Five Guests - Advance arrangement for two to five guests may be made at the Recreation Office. (No more than five guests per employee is ever permitted.) When such an arrangement is made, the Recreation Office issues an admission card stating the sponsor's name and life number, the number of guests permitted, the date of visit, and the facility to be visited. Guests must be accompanied by the employee, who will be requested to show the admission card at the main gate and at the swimming pool ticket desk.
Sponsoring employees are responsible for their guests during the entire time they are on site.

Bowling

White League
J. Roesler bowled a 233, K. Asselta 219, S. Smith 180, N. Erickson 191/172, J. Ferrante 202 and also converted the 6/7/10, M. Belligan 177. The Gropers are holding on to first place.
Pink League
High games were rolled by F. Briening 163, K. McNally 169, J. Thiede 167, D. Johnson 180, M-G Meier 193/173, H. Keeley 190/160, R. Rosati 173/162, C. Beckner 162, E. Kristiansen 170.
Red & Green League
A. Pinelli bowled a 226, J. Morris 214/201, C. Bohnenblusch 214, E. Sperry IV 213, A. Almasy 211, J. Connelly 209, B. Sick 204.
Purple League
High games were rolled by E. Meier 235, P. Bonti 233, D. Stonebridge 202/217, B. Jones 204/203/602 scratch, G. Spira 213, H. Keeley 204, C. MacDougall 201/201, M-G Meier 189. The Drafters are in first by two points followed by the Good Times.

Arrivals & Departures

Arrivals	
None	
Departures	
This list includes all employees who have terminated from the Laboratory, including retirees:	
Edward M. Dubaniewicz	S&M
Colleen L. Slattery	Contracts & Proc.
Jerry Svoboda	Supply & Materiel
George C. Waldbauer	Supply & Materiel

Good Sports

Peter Horton

Another season of summer sport started this week as umpires yelled "Batter up!" Mixed league softball kicked off last Monday afternoon on Field 1 as Who Cares took on The Source. Here Gary Connell contributed to Who Cares' early lead with a two-run homer. Despite a very close play at the plate by The Source's Joe Sheehan, both April Donegain and Connell scored. The final score: Who Cares 22, The Source 9.

Quilting Club

The BERA Quilting Club will meet on Tuesday, May 18 from 7 to 9:30 p.m. in the Recreation Building. There will be a demonstration of Trapunto, announcements of local quilt-related activities, show-and-tell, and time to visit with the other members while you work on your own quilting or needlework project. All employees and their spouses who are interested in any aspect of quilting, patchwork or applique are invited to attend our meetings. For more information, call Bernie Benz, 928-1068 or Beth Pile, Ext. 3186.

Cafeteria Menu
Week Ending May 21, 1982

Monday, May 17	
Cream of mushroom soup	(cup) .60 (bowl) .70
Western omelet w/hash browns	1.70
Kielbasi w/sauerkraut	1.80
Hot Deli — BBQ top round of beef	(bread) 1.85 (roll) 1.95
Tuesday, May 18	
Beef barley soup	(cup) .55 (bowl) .65
BBQ spare ribs & 1 veg.	1.85
Cheddar cheese steak & 1 veg.	1.75
Hot Deli — Roasted turkey breast	(bread) 1.75 (roll) 1.85
Wednesday, May 19	
Turkey okra creole	(cup) .55 (bowl) .65
Stuffed cabbage & 1 veg.	1.75
Sauerbraten w/potato pancake & red cabbage	2.15
Hot Deli — Sandwich steak w/pepper & onions	(bread) 1.80 (roll) 1.90
Thursday, May 20	
Pork & cabbage soup	(cup) .55 (bowl) .65
Chinese pepper steak on rice	1.85
Southern fried chicken & 1 veg.	1.75
Hot Deli — Corned beef	(bread) 1.75 (roll) 1.85
Friday, May 21	
Clam & celery bisque	(cup) .60 (bowl) .70
Broiled fish fillet & 1 veg.	1.70
Chicken pattie Parmesan & 1 veg.	1.75
Hot Deli — Breaded fish fillet hero	1.85

Runners' Corner

Reminder: The BNL Roadrunners' Spring 5k and 15k races will take place this Sunday, May 16, at 10 a.m. All are welcome. For more information, call Ted Landry, Ext. 2959; Jeanne Penoyar, Ext. 2614; or Bill Thomlinson, Ext. 3937.

WIS Meeting

Dr. Jane Porcino, gerontologist, will speak on "Health Issues of Women Over Forty" on Thursday May 20. Dinner will be served at 5:15 in the Brookhaven Center and the talk will follow. Please make dinner reservations by sending a check for \$7.50 payable to BNL-WIS to Ellen Gannon, Bldg. 801, by May 17.

Soccer

The Soccer club has resumed its outdoor season. Pick up games are held every Monday at the BERA recreation field on Brookhaven Avenue. Games start at 5:30 p.m. Everyone is welcome to play. Any inquiries may be directed to Dave Cox, Ext. 3818, or to Enrique Abola, Ext. 4383.

Placement Notices
The Laboratory's placement policy is to select the best-qualified candidate for an available position, with consideration given to candidates in the following order of priority: (1) present employees within the department, with preference to those within the immediate work group; (2) present employees within the Laboratory as a whole; and (3) outside applicants. In keeping with the Affirmative Action plan, selection decisions are made without regard to age, race, color, religion, national origin, sex, handicap or veteran status.
Each week, the Personnel Office lists new personnel placement requisitions. The purpose of these listings is, first, to provide open placement information on all non-scientific staff positions; second, to give employees an opportunity to request consideration for themselves through Personnel; and, finally, for general recruiting purposes. Because of the priority preference policy stated above, each listing does not necessarily represent an opportunity for all candidates. As a guide to readers, the listings are grouped according to the anticipated area of recruitment.
Except when operational needs require otherwise, positions will remain open for one week following publication date.
For further information regarding a placement listing, contact the Personnel Placement Supervisor, Ext. 2882.
The vacancies listed below have been exempted by the Director's Office from the current freeze on open requisitions.
SCIENTIFIC POSITIONS OPEN: The following staff positions are open. Candidates may apply directly to the department representative named, or through the Office of Scientific Personnel, Ext. 3338.
SCIENTIFIC STAFF - Openings for M.S./Ph.D. mechanical or chemical engineers with experience in numerical methods of heat and mass transfer, and understanding of reactor systems; and for Ph.D. physical chemists with experience in high temperature chemistry and aerosol physics. Contact: Cesar A. Sastre, Department of Nuclear Energy.
JUNIOR STAFF - Position for Ph.D. with electrochemical or metallurgical background, with knowledge of corrosion. Contact: Daniel Van Rooyen, Department of Nuclear Energy.

Autos & Auto Supplies

69 & 70 VW BUG BODIES - good pans, parts, or all, no engines, make offer. Fred, Ext. 4823 or 588-2268.

70 TOYOTA CORONA - 2 dr., 4 spd., garaged 4 years, excel. body & engine, \$1,200. Sam, Ext. 4138 or 751-9096.

GROUNDHAWG TIRES - (4) 14.35x15, very good cond., low mileage, \$275. 286-1522 eves.

73 CHEVY-C10 SUBURBAN - trailer package, runs good, extras, one owner, \$1,850. Ext. 2380 or 929-8142.

73 CHEVY SUBURBAN - 350 V8, \$750. Ext. 2292.

79 HONDA - CM400T, 2,000 mi., garaged, must sell, \$1,100. 981-0181.

73 HONDA - CB750, quartz headlight, seat, K&N filters, alphabet pipes, new tires, \$1,000. Dennis, Ext. 5385 or 654-2076.

78 YAMAHA - XS400 special, black, 4,600 mi., elect. start, windshield, luggage rack, (2) Arais helmets, service manual, \$1,300. 929-8204 after 5 p.m.

74 TORINO - 302 V8, a/t, p/s, new exhaust & shocks, body good, needs some engine work, \$575. Ken, Ext. 2350.

78 TRANS AM - 6.6 LT, gold/beige int., p/s, p/b, DE, new brakes & exhaust, am/fm, 8track, T-top, 4 spd. Roy, Ext. 4664 or 744-8779.

AUTOBODY PARTS - for late model Chevy Blazer, have (2) rear quarter panels, tailgate w/glass fiberglass cap, no rot. 286-1522.

81 DODGE ARIES-K - 11,000 mi., 4 dr., blue, mint cond., custom, \$6,200 firm. George, 588-1713.

TIRES - F70-14 on mag wheels for Plymouth, \$5/ea. 744-9677.

80 SUZUKI - GS1000L, luggage rack, many extras, warranty, mint cond., \$2,900. Ext. 7187 or 981-9474.

71 VW BUG - rebuilt engine, new trans., good rubber, \$550. 878-2681 eves.

SHOCKS - Load Levellers. Ext. 3919.

FORD TRUCK RIMS - new, (4) w/hub caps, 15", \$10/ea.; snow tires, (2) E78-14", good cond., \$8/ea. 924-3082.

76 HARLEY DAVIDSON FLH-1200 - 10,000 mi., black, stock, clean, low-rider seat, \$3,650. Ext. 4460 or 929-3347.

72 FORD - 2 dr., needs some work. 399-4243.

73 HONDA - 500, fairing, saddle bags, trunk, air-horn, \$650. Frank, Ext. 4581 or 588-3565.

TIRES - (4) 8.75x16.5, (2) 12.00x16.5, \$60/takes all. Fred, Ext. 4798.

77 HONDA - 750, auto, windshield, luggage rack, 5,000 mi., excel. cond., \$1,500. 281-5505 after 7 p.m.

81 YAMAHA - 250, windshield, 80 mi., like new, \$1,250. 281-5505 after 7 p.m.

78 HONDA GOLDWING - GL1000, 4,000 mi., like new, \$2,600. 473-8783.

TRUCK TIRES - (2) 9.50x16.5, good cond., \$20/ea. Dee, Ext. 3675 or 286-8909 after 5:30.

78 YAMAHA - XS650 special, low mi., very good cond., \$950. Brian, Ext. 3612.

69 VW - rebuilt engine & semi auto. trans., needs work, best offer over \$350. Fred, Ext. 4823 or 399-6333 after 6 p.m.

70 PLYMOUTH DUSTER - good cond., new tires. 727-7741.

80 MAZDA SPORT PICKUP - immaculate, stereo w/tape, 21,000 mi., 26 mpg local, 40 mpg highway, cap. 727-7741.

79 GMC 3/4 TON PICKUP - 4 spd., 350 cu./in. engine. 878-0953 or 878-9582.

73 CHEVY VEGA - good for parts, good tires. 878-1514.

69 DODGE CHARGER BODY - excel. cond., primed, negotiable, \$450. 473-5890 after 5 p.m.

77 FORD MUSTANG II - V-roof, p/s, p/b, V6, sporty, excel. cond., \$3,400. 473-4034 eves.

78 HONDA - 400cc, well maint., 6,000 orig. mi., some extras, must see, \$1,000. Ext. 2926.

74 CHEVROLET STEP-VAN - V8, 4 spd., refrigerated, insulated, fiberglassed, heavy duty front & rear, \$4,000. 654-5169.

73 PINTO WAGON - 4 spd., reg. gas, a/c, w/w radials, bucket seats, 75,000 mi., looks & runs like new, \$1,095 or best offer. 473-2473.

71 VOLKS SUPER BEETLE - new eng., new tires, excel. running cond., \$1,400. Ext. 4049 or 331-1665.

76 CHEVY 1/2 TON PICKUP - 350 eng., 3 spd., two-tone color, 8' bed, cap, white slat wheels, \$3,700. Steve, Ext. 4297 or 929-6877.

69 DATSUN - good for parts, \$50. Steve, Ext. 4297 or 929-6877.

76 BUICK LESABRE - custom, 2 dr., hardtop, full option, a/c, p/s, p/b, p/w, e/l, am/fm stereo cassette, 6-way p/seats, new tires, \$2,500. Tsuyoshi, Ext. 4529 or 3214 (apt.).

69 VW BUG - body and int. good cond., blue, you remove from chassis, \$200. Rich, 929-8930.

MINIBIKE - needs work, doesn't run, asking \$40. John, Ext. 3292 or 286-1348.

RADIAL TIRE - 165x13, new, mounted on Datsun 1978 F10 wheel, asking \$35. John, Ext. 3292 or 286-1348.

60 MERCEDES 190B - has broken cam shaft, good for parts. Bob, Ext. 4637 or 692-8659.

79 HONDA HAWK - 400cc, almost new, asking \$1,200. 588-0805 eves.

79 SUZUKI DS100 - trail bike, excel. cond., new tire & chain, \$500. Pete, 289-0145.

73 HONDA CB-350 - good cond., low mi., \$450. 878-8847.

SEATS - front, for VW Bug and Fastback. 589-5490 after 6 p.m.

TIRE RIMS - (2) GM, size 14. William, Ext. 4270.

73 MAZDA RX-2 - rotary, 4 spd., excel. body/int., a/c, eng. removed, \$400. Rich, 929-8930 after 7 p.m.

75 HONDA - 750cc, many extras, must sell, mint, \$1,600. 698-5088.
